

Crepe Paper Poppy

Supplies:

Scissors

Floral Wire

Floral Tape

Crepe Paper

Stamen (Optional)

1. Cut petals out. 4 small and 4 large per bloom. (Imperfect is good, it looks more natural.) then slightly pull the crepe paper to round the petal shapes.

2. Wrap a small ball in crepe paper to create the flower center. Use floral tape to attach. (also add stamen here if you'd like).

3. One petal at a time attach using floral tape. 4 small ones and then 4 large ones.
